

Pebble Path Crochet Poncho: Simple Two Rectangle Design Printable PDF

This Pebble Path Crochet Poncho is designed with simplicity in mind. This cozy layering piece is made from just two rectangles with no complicated shaping and no stress. If you're new to garment-making or simply love a relaxing, satisfying project, you're going to adore this design.

💡 Beginner Crochet Tips for Making a Poncho

If this is your first time making a wearable item, don't worry—here are a few tips to help you succeed:

- **Check Your Gauge.** Before starting, crochet a small swatch to match the pattern's stitch gauge. This ensures your poncho comes out the right size.
- **Take Your Measurements.** Measure your shoulder width and desired length so you can customize the rectangles if needed.
- **Use Basic Stitches.** Stick with beginner stitches like half double crochet or double crochet for an easy rhythm.
- **Seaming.** Don't stress over joining rectangles! Use a whip stitch, mattress stitch, or slip stitch to seam the shoulders.
- **Use Lightweight Yarn.** Choose a #3 (DK/light) yarn for a poncho that drapes well and isn't too bulky. It creates a flattering fit without the weight of thicker yarns.

Pebble Path Crochet Poncho: Simple Two Rectangle Design

Directions: Pebble Path Crochet Poncho: Simple Two Rectangle Design

Skill Level

Suitable for the Confident Beginner Crocheter

Gauge

For the Poncho Rectangle. 15 stitches per 4 inches. 16 rows of the stitch pattern per 4 inches.

For the Collar Rectangle. 14 stitches per 4 inches. 8 rows of the stitch pattern per 4 inches.

Make a Gauge Swatch

A gauge swatch is a small piece you work first to check how many stitches you have per inch. Checking the gauge helps make sure that your finished piece will not turn out too big or small. Changing the yarn or using a smaller or larger crochet hook can change the gauge.

I like to use the tape measure to help make sure that the starting chain and length is the correct size.

Size

Poncho Sizes. The poncho is made from two rectangles.

The size of the poncho shown uses two rectangles size 23" long X 35" wide. This does not include the collar.

*The dimensions given below are the size of each finished rectangle.

S/M = 20-22" long x 25-30" wide

L/XL = 23-26" long x 31-40" wide (shown)

2XL/3XL = 27-30" long x 41-50" wide

Changing the size of the poncho.

Use a tape measure to check the size.

For the poncho, the starting chain determines the width. To change the size of width, use multiples of 2 + 1 for the beginning chain.

The number of rows determines the length. Increase or decrease the number of rows.

Collar Sizes. This is made from one collar.

S/M = 4" long x 26" wide

L/XL = 5" long x 28" wide (shown)

2XL/3XL = 6" long x 30" wide

For the collar, the starting chain determines the width. You can change the desired width by starting your foundation chain with multiples of 4 plus 3.

The number of rows determines the length. Increase or decrease the number of rows.

Abbreviations

- CH = Chain
- DC = Double Crochet
- SC = Single Crochet
- SK = Skip
- SP = Space
- ST = Stitch
- STs = Stitches
- [] = Repeat Between

Materials

Yarn. Lion Brand Coboo in the color Silver. Each skein has 232 yards. 3.05oz./100g/number 3 light yarn weight.

For the poncho shown I used 7 skeins for a total of 1,600-1,624 yards.

Suggested yarn for each size poncho.

S/M: 5 skeins, about 1,000 yards

L/XL: 7 skeins, about 1,600 yards

2XL/3XL: 10 skeins, about 2,300 yards

Crochet Hook Size I 5.5mm for the collar

Crochet Hook Size L 8.0mm for the poncho

Yarn Needle for sewing in yarn ends and sewing on the collar.

Tape Measure

Clips or Stitch Markers

Scissors

Pattern Notes

Written in US Terms.

Turn at the end of each row.

The poncho is made from two simple rectangles.

The collar rectangle is worked separately and sewn on.

Stitch counts are given in the order S/M (L/XL, 2XL/3XL).

Refer to the diagram for poncho assembly.

There is a video tutorial for joining, the single crochet grit stitch, and the Iris stitch after the written pattern.

Crochet Stitches

Chain Stitch CH

Begin the chain stitch by making a slip knot and adding the loop on the crochet hook.

Keeping the loop on the hook, wrap the yarn over the crochet hook from back to front using the hook to draw the yarn through the loop that is currently on the hook. (The first chain stitch is complete).

[HOW TO CROCHET THE CHAIN STITCH](#) video tutorial

Double Crochet (DC)

Yarn over, insert the hook through both loops and pull up a loop. Next, yarn over and pull through two loops on the hook. Lastly, yarn over again and pull through the last two loops on the hook.

[HOW TO CROCHET THE DOUBLE CROCHET STITCH](#) video tutorial

Single Crochet (SC)

Insert the hook, pull up a loop. Yarn over and pull through the two loops on the hook.

[HOW TO CROCHET THE SINGLE CROCHET STITCH](#) video tutorial

Two Double Crochet V-Stitch

This means you work two double crochet stitches, chain 1, and two double crochet stitches all in one stitch. Today, this becomes the Iris Stitch Cluster.

Begin Crochet Pattern

For the Poncho

Using the Size L Crochet Hook 8.0mm

***Make Two** of the same size

Work the foundation chain in multiples of 2 + 1. I've given the range of stitches to work based on your desired size.

S/M = 25" CH 95, 30" CH 113

L/XL = 31" CH 116, 35" CH 133 (shown), 40" CH 151

2XL/3XL = 41" CH 155, 45" CH 169, 50" CH 189

Start by making a slip knot and adding the loop on the hook. Work the number of chain stitches indicated for your desired size.

Use a tape measure to double check the length of your foundation chain.

Row 1

Starting in the 3rd CH from the hook, work 1 SC. [SK next chain, work 2 SC into the next stitch]. Repeat between [] across the row ending with 1 SC worked into the last Chain ST. Turn

Row 2

CH 1. In the first stitch, work 1 SC. [SK 1 SC, work 2 SC into the next SC]. Repeat between [] across the row. End with 1 SC worked into the last SC.

Rows 3 and Beyond

Repeat row 2 until you have reached your desired length.

S/M = 20" = 80 Rows, 22" = 88 Rows

L/XL = 23" = 96 Rows (Shown), 26" = 104 Rows

2XL/3XL = 27" = 108 Rows, 30" = 120 Rows

***Make the second rectangle**

Finishing

Pull the yarn through the last loop.

After the last stitch, leave about a 10-12 inch yarn tail. Pull the tail through the last stitch. Using the tapestry needle, weave in the yarn ends. Cut off the excess yarn.

Set the two rectangles aside.

Crochet the Collar

***Make One**

Use the crochet hook size I 5.5mm for the collar

Start by making a slip knot and adding the loop on the hook.

Collar Sizes

S/M = 26" wide = CH 91 STs

L/XL = 28" wide = CH 99 STs (shown)

2XL/3XL = 30" wide = CH 107 STs

Make a foundation chain any stitch combination using multiples of 4 plus 3.

Chain 91, 99, or 107 depending on your desired size. (Use a tape measure to double check the length of your foundation chain.)

Row 1

SK 4 STs. In the 5th CH from the hook, work (2 DC, CH 1, 2DC). [SK 3 STS, in the 4th CH ST work (2DC, CH 1, 2DC)]. Repeat across between [] to the last 2 CH STs. Then SK 1 ST and work 1 DC into the last ST. Turn

Row 2

CH 3. SK 2 DC. In the CH SP of the row below, work (2DC, CH 1, 2DC). [SK to the next CH SP and work (2DC, CH 1, 2DC)]. Repeat across between []. End with 1 DC in the top of the turning chain. Turn

Rows 3 and Beyond

Continue to repeat row 2 until you reach the desired length. Here are the suggested rows. Make sure to use a tape measure to check the length without stretching.

S/M = 4" long = 8 rows

L/XL = 5" long = 9 rows (shown)

2XL/3XL = 6" long = 10 rows

Finishing

Pull the yarn through the last loop.

Cut the yarn leaving a 10-12 inch yarn tail. Pull through the last loop. Using your tapestry needle, weave the yarn back and forth through the crochet stitches. Then snip off any excess yarn.

Set the collar aside.

Joining the Rectangles

Align the rectangles with the stitches facing the same way, one on top of the other.

The nice part about the single grit stitch is that there is no right side or wrong side.

Fold in half to find the middle. Place a stitch marker in each rectangle or place a clip to hold both panels together there. Then place stitch markers or clips on the top corners.

Measure the Neck Opening

Measure from the middle clip on either side.

- **S/M** = 5 inches
- **L/XL** = 6 inches
- **2XL/3XL** = 7 inches

Place a clip on both the right and left of the middle. This is the outer edge of the neck opening.

Thread the yarn needle and begin at the top corners. And sew the front panel to the back panel up to the stitch markers you just measured on either side of the middle.

I sewed one way, then back the other way for extra stability on each shoulder seam.

Use a whipstitch or mattress stitch to sew the front and back rectangle panels together for the poncho.

- **Whipstitch.** Insert the needle from back to front, wrapping the yarn around the edges in a spiral motion.
- **Mattress Stitch.** Work through the middle of the stitches on the edges of both pieces, creating an almost invisible seam.

Keep the Tension Even. As you sew, ensure the yarn is snug but not so tight that it puckers or distorts the fabric.

Join the Collar to the Crochet Poncho

Align the Collar and Poncho

Lay the poncho flat and position the collar and poncho with the right sides together. Make sure that the collar edge aligns evenly with the joining line of the poncho. Use stitch markers or clips to secure the collar in place, ensuring it's evenly distributed around the neck.

Using the same middle stitch marker, align one end of the collar to the middle. I joined the first row of stitching to the poncho neck opening.

Note. I overlapped the ends of my collar. However, you could just meet them together and not overlap.

Using a yarn needle and a length of yarn about 50-70 inches long sew the collar to the poncho.

Thread the yarn through the yarn needle and start sewing the collar and the poncho neckline together. Begin at one end of the collar leaving a 6–8-inch yarn tail. Use a whipstitch or mattress stitch to sew the collar to the poncho. I sewed the collar one way, then back the other way for extra stability.

Finish the Seam

Once you've sewn all the way around the neckline, weave in any remaining yarn tails with the yarn needle, hiding it within the stitches of the poncho or collar. Cut off the excess yarn.
